PCIe 4.0 XG7000 Series

# PCIe 4.0 XG7000 Series

## Features

· PCIe 4.0 Gen 4x4

· Up to 7400MB/s

· Broad Compatibility

## Capacity

512GB

1TB

2TB

4TB

# Specifications

KingSpec M.2 PCIe 4.0 NVMe SSD-XG7000-Max. 4TB

|                  |                    |                  |                        |
|------------------|--------------------|------------------|------------------------|
| Model Name       | XG7000-XXX 2280    | Interface        | PCIe Gen 4x4           |
| NAND Flash       | 3D NAND            | Form Factor      | M.2 M Key              |
| Input Voltage    | DC 3.3V            | Capacity Option  | 512GB,1TB,2TB,4TB      |
| ,Sequential Read | 7200-7400MB/S      | Sequential Write | 4400-6600MB/s          |
| MTBF             | 1 million hours    | TBW              | 300TB/600TB/1200TB/240 |
| Dimensions       | L80mm*W22mm*H2.1mm | Warranty         | 3 years                |

## Comparison

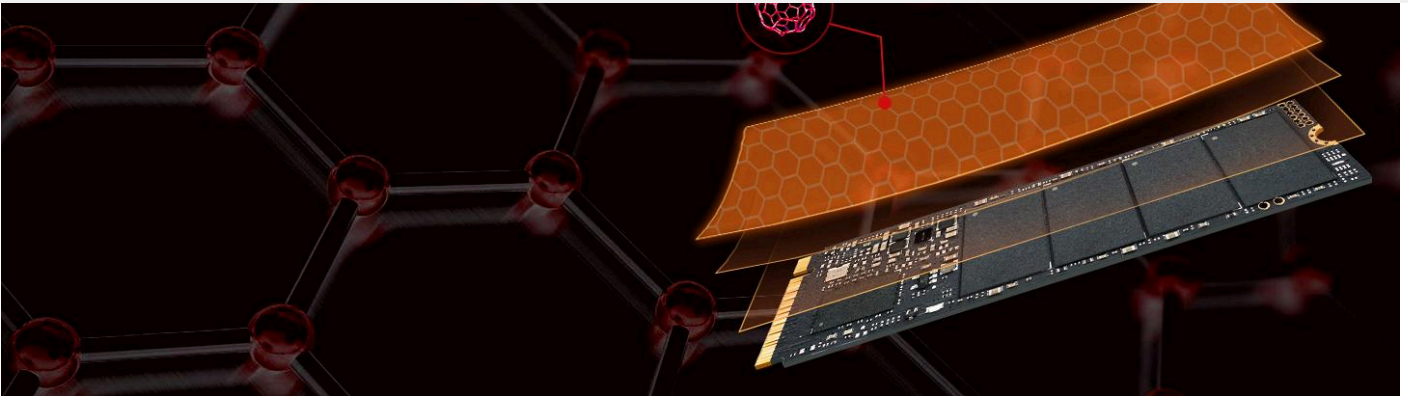

## Supreme Speed Experience Upgrade

Unleash the XG7000 M.2 NVMe PCIe 4.0 SSD's potential with PCIe 4.0 Gen4×4, reaching an astounding 7400/6600 MB/s (Max R/W) speed,

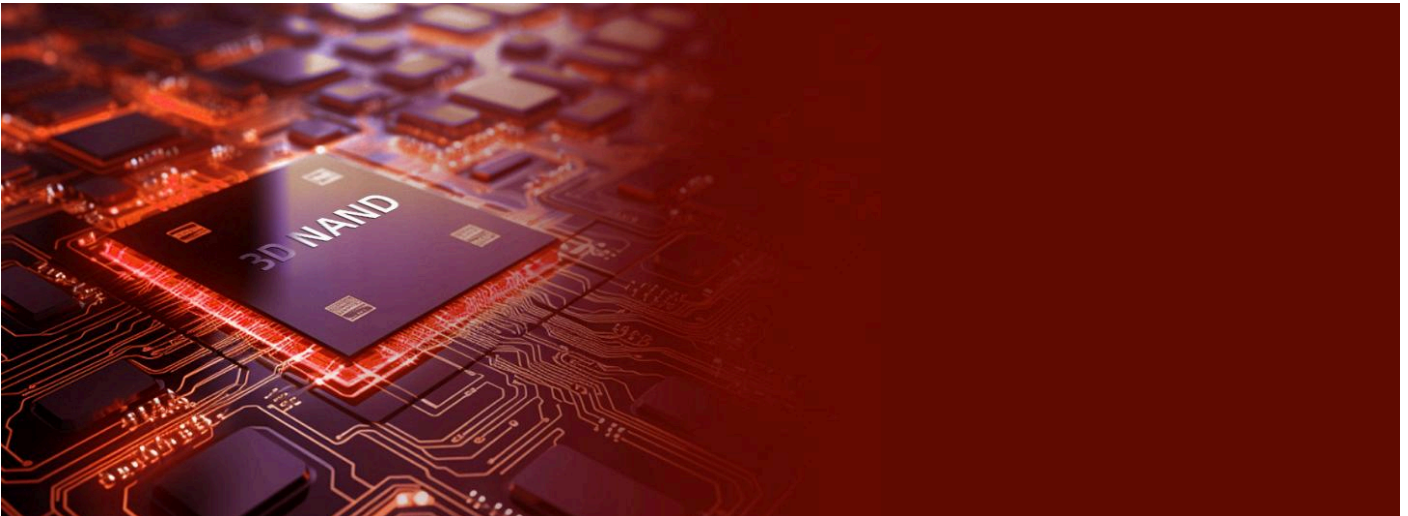

### Comparison

## Ultra-thin Graphene Heatsink Label

Prolong SSD life with our ultra-thin graphene heatsink label and elevate the gaming performance and durability seamlessly.

## Exceptional Performance, Unmatched Endurance

Comparison

heavy workloads.

## Enjoy Uninterrupted High-Speed Gaming

Experience zero delays with PCIe4.0 SSD, boasting a lightning-fast read speed of 710K and an impressive write speed of 670K. Immerse yourself in seamless gameplay as you navigate the virtual world effortlessly.

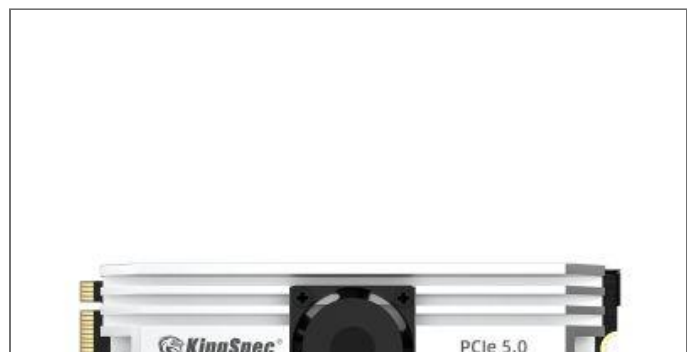

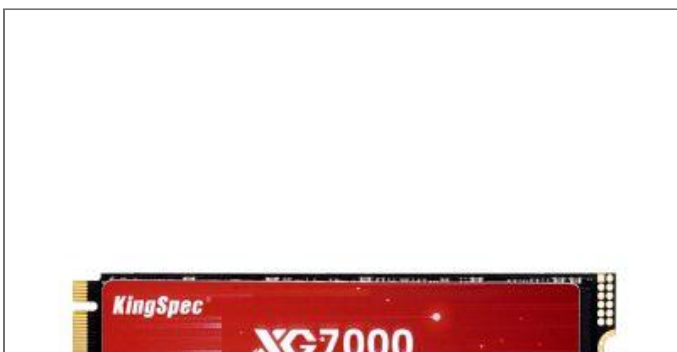

## Comparison

# Technology

Optimize SSD performance and extend its lifespan with TRIM and S.M.A.R.T. LDPC ECC guarantees data accuracy, E2E Data Protection safeguards your information, while Wear Leveling further enhances SSD durability. Your data's safety and longevity are our utmost priorities.
